Submission of Quoted rate for Supplying of Truss Work with Profile Sheet, Truss less Roofing in different places under Choudwar Municipality.

Vide Quotation Call Notice No. Dev/, dtd,

Sl No	Description of Items	Unit	Rate quoted without GST	Rate quoted with GST
1	Supplying & Providing, fabricating and erecting steel truss work using MS/ISMB/ISA/pipe sections of approved grade and size, including cutting, welding, drilling, grinding and assembling as per structural drawings; lifting and erecting the trusses in position with proper alignment, level and bracing; applying one coat of anti-corrosive primer and two coats of weather-resistant synthetic enamel paint; supplying and fixing purlins using MS channels, angles or galvanized Z/C purlins as specified; providing and installing profile roofing sheets of approved make, thickness (0.45–0.60 mm), colour and coating (GI/PPGI/PPGL), fixed with self-drilling screws, EPDM washers and accessories; including fitting ridge pieces, barge boards, flashing, gutters, down-take arrangements and all necessary fixtures; ensuring proper overlaps, water-tightness and finishing; and completing the work in all respects as per drawings, specifications and the direction of the Engineer-in-Charge.	Sqm		
2	Supplying & Providing and constructing a Truss-less Roofing System (self-supported) using coloured, high-tensile steel sheets of approved make and thickness (typically 0.6–1.2 mm), including site measurement, design and machine-controlled roll-forming/bending to the required curvature and span; fabricating and supplying self-supporting sheets capable of spanning without intermediate trusses; lifting and installing the curved sheets in position with proper alignment, overlap and slope; securely anchoring the sheets to the RCC/steel supporting beam using appropriate anchor bolts, fasteners and EPDM-sealed self-drilling screws; applying weatherproof sealant at all joints, overlaps, gutters and end connections to ensure complete water-tightness; finishing all edges with end caps/flashings; providing necessary scaffolding and safety measures; and completing the entire roofing system in all respects as per manufacturer's design guidelines, approved specifications and the direction of the Engineer-in-Charge.
